CERTIFICATE OF CONFORMANCE

CAMLOC CAGE CODE...71286

Customer :	<u>B/E AEROSPACE INC</u>
Part Number :	<u>2600-6</u>
Customer P/N :	<u>NSA55132-106 REV. G / 3D0063-6AS REV. G</u>
P.O. Number :	<u>0WMY47</u>
Lot Number :	<u>1786696</u>
Quantity :	<u>7838</u>

This certifies that the above part number was tested in accordance with the quality conformance test proposal for Quarter Turn Panel Fasteners agreed upon by Boeing Corporation and Camloc Products. A sample from the lot was selected at random per MIL-STD-105, Inspection Level S-2, with an AQL of 1.0 percent. The test results for locking torque and unlocking torque are in conformance with Camloc Products design specifications. Tests for stud hardness are in conformance with paragraph 3.5.11 of MIL-F-5591 for alloy steel. Hardness for stud materials other than alloy steels are in conformance with table II of MIL-F-5591, which are in conformance with Camloc Products design specification. Tests for stud materials other than ally steel are in conformance with Camloc Products design specifications. These reports are on file and available for review.

Quality Assurance

The test report shall not be reproduced except in full, without the written approval of the laboratory; and the recording of false, fictitious, or fraudulent statements or entries on the certificate may be punished as a felony under federal law.

SPECIAL INSTRUCTIONS

GOODS RECEIVED BY: _____

DATE _____

Seller hereby acknowledges that the parts and/or materials being shipped under this order are intended for use under Boeing's Federal Aviation Administration (FAA) issued Production Certificate 700. Boeing requires that the provisions/requirements set forth above be included in Seller's direct supply contracts as well as the obligation that they be flowed to the applicable sub-tier supply chain.

QRP Inc. Certificate of Compliance

Subject to the provisions in our standard Terms and Conditions of Sale, we hereby confirm that with respect to the products supplied in this order, the products conform to the indicated drawings and specifications, if and to the extent that we previously agreed in writing to each applicable drawing and/or specification.

It is further certified that the material described above has been inspected and tested as stated or required in these specific drawings, that such specimens or samples as have been tested were taken from the lot described and that the material meets all applicable requirements.

Passivation, if required, was performed in accordance with ASM 2700 Method 2. Passivation was verified using the Koslow Passivation Tester 2026 and a reading of 0 to -400 was obtained. This range is correct for 17-4ph and 300 series Stainless Steel.

Appropriate test reports and/or certificates are on file for your review and verification upon request. Equipment containing mercury or mercury compounds has not been used for fabrication, assembly, packaging or installation of parts or assemblies on this order.

Maximal and/or Valplus grades/products are manufactured with ladle techniques to control composition, distribution, size and shape of non-metallic inclusions for improved machinability.

The supplied product conforms to requirements expressly requested by the purchaser and conforms to requirements specified by certified norms and standards. Should the product be used for more severe, critical and/or in any case different applications than those the material is generally intended for, any different and/or supplementary requirements shall be specifically demanded, at least, upon order of the Product by the Purchaser. Acciaierie Valbruna SpA shall not be responsible for any improper use of the Products.

We hereby certify that all materials used in the manufacture of parts covered by this report conform to the material specifications called for by the above purchase order. We further certify that the parts are manufactured in accordance with applicable drawings or specifications current on the date on which the order was placed. Test reports covering materials in these parts, and indicating conformance with applicable specifications, are on file and subject to examination. No ozone depleting substances were used in processes. Parts are mercury free of contamination.

Miscellaneous Notes

Made in USA ✓

This material was melted and manufactured in the USA. Mercury is not a normal contaminant in aluminum alloys. Neither mercury nor any of its compounds were utilized by Kaiser Aluminum in the manufacture of this material. AS9100C:2009 The recording of false, fictitious or fraudulent statements or entries on the certificate may be punished as a felony under federal law.

This material meets the requirements of QQ-A-225/6E Amendment 1 (CANCELLED). This material is RoHS 2 compliant.
